

4th European Rail Transport Regulation Forum

Florence, 19 March 2012

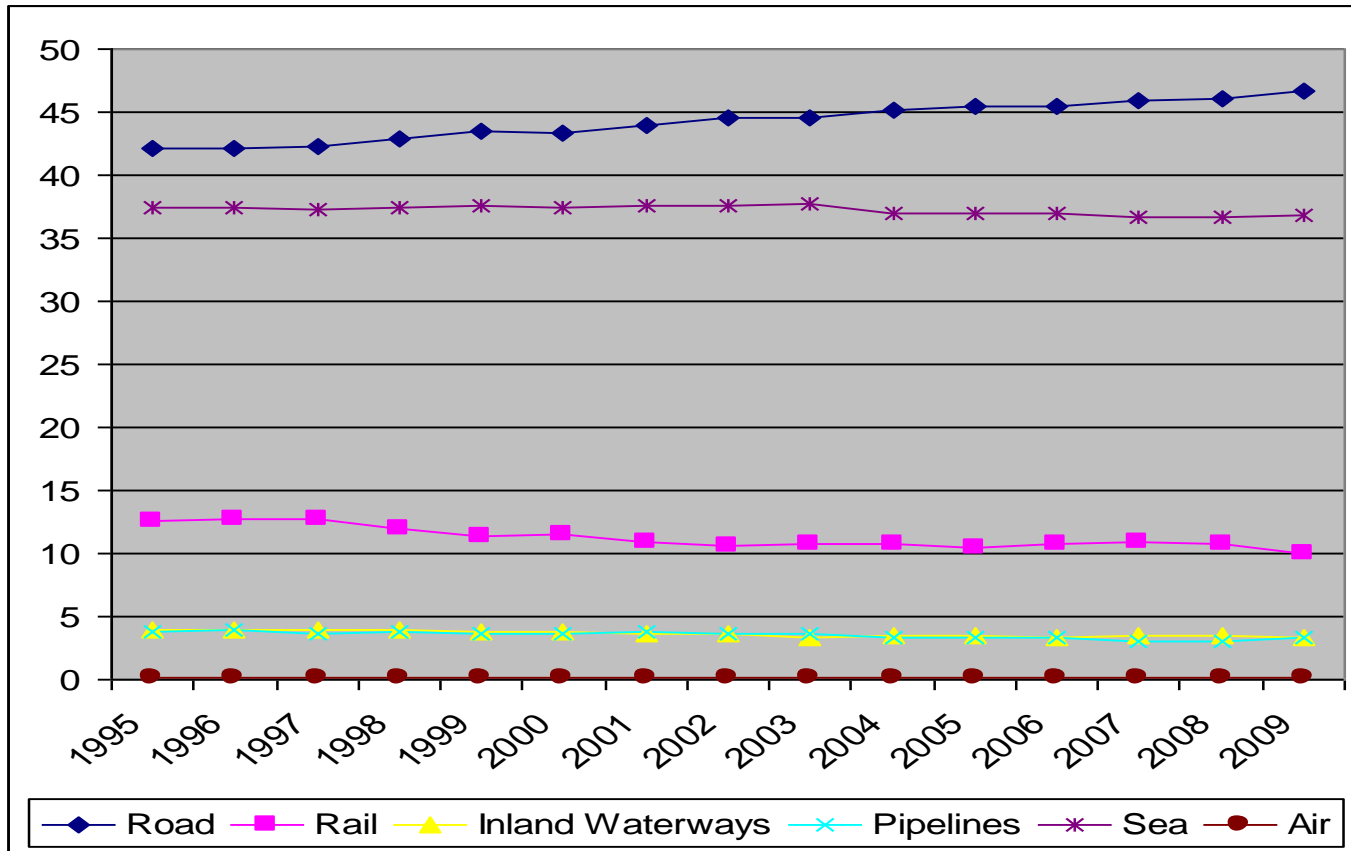

Mission

- *Completing the European internal market (seamless integration of all modes of transport)*
- *Developing an agenda for innovation (sustainable transport technologies)*
- *Building the EU's core trans-European infrastructure network*
- *Projecting the EU's mobility and transport objectives and defending EU political and industrial interests on the world stage.*

Rail: what do we want to achieve ?

- opening of the rail transport market to competition
- improving the interoperability and safety of national networks
- developing rail transport infrastructure

Modal shares in freight transport in the EU 27

Modal share in passenger transport EU27
