

Institutionalising an independent European regulator:
the administrative integration of the Performance
Review Body (PRB) into EASA, and implications for
the new distribution of tasks in relation to national
economic regulators?

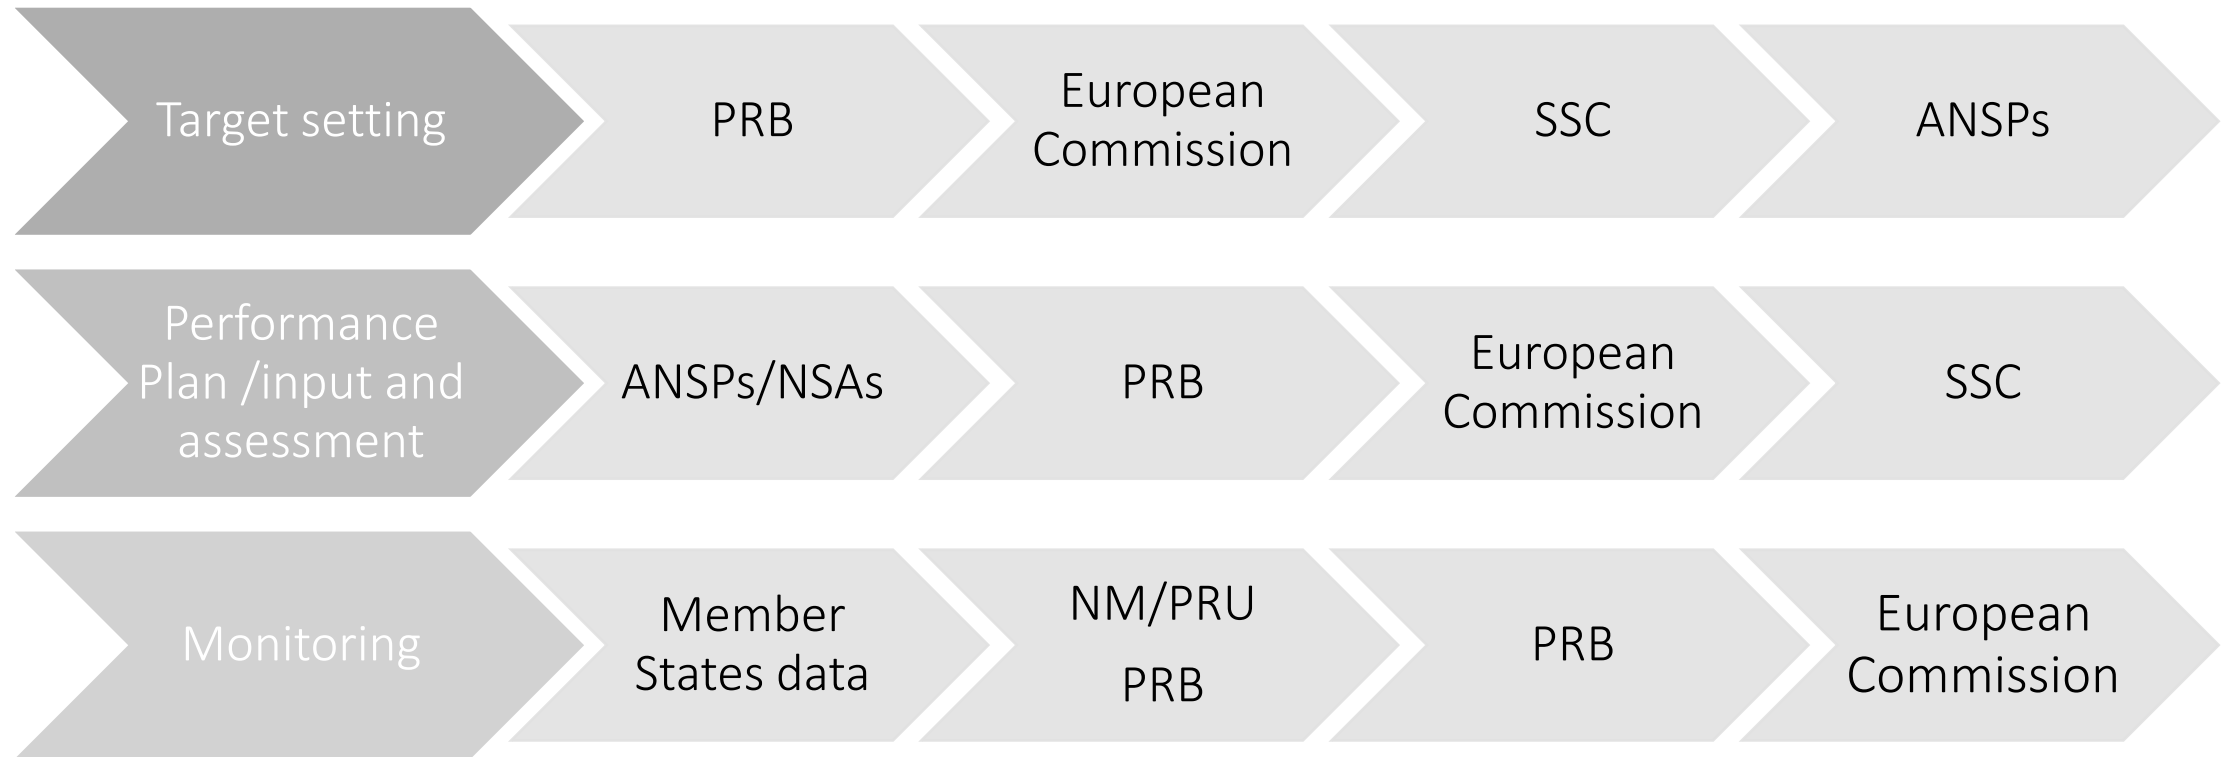

15th Florence Air Forum

Streamlining Economic Regulation for Air Traffic Management (ATM) in Europe

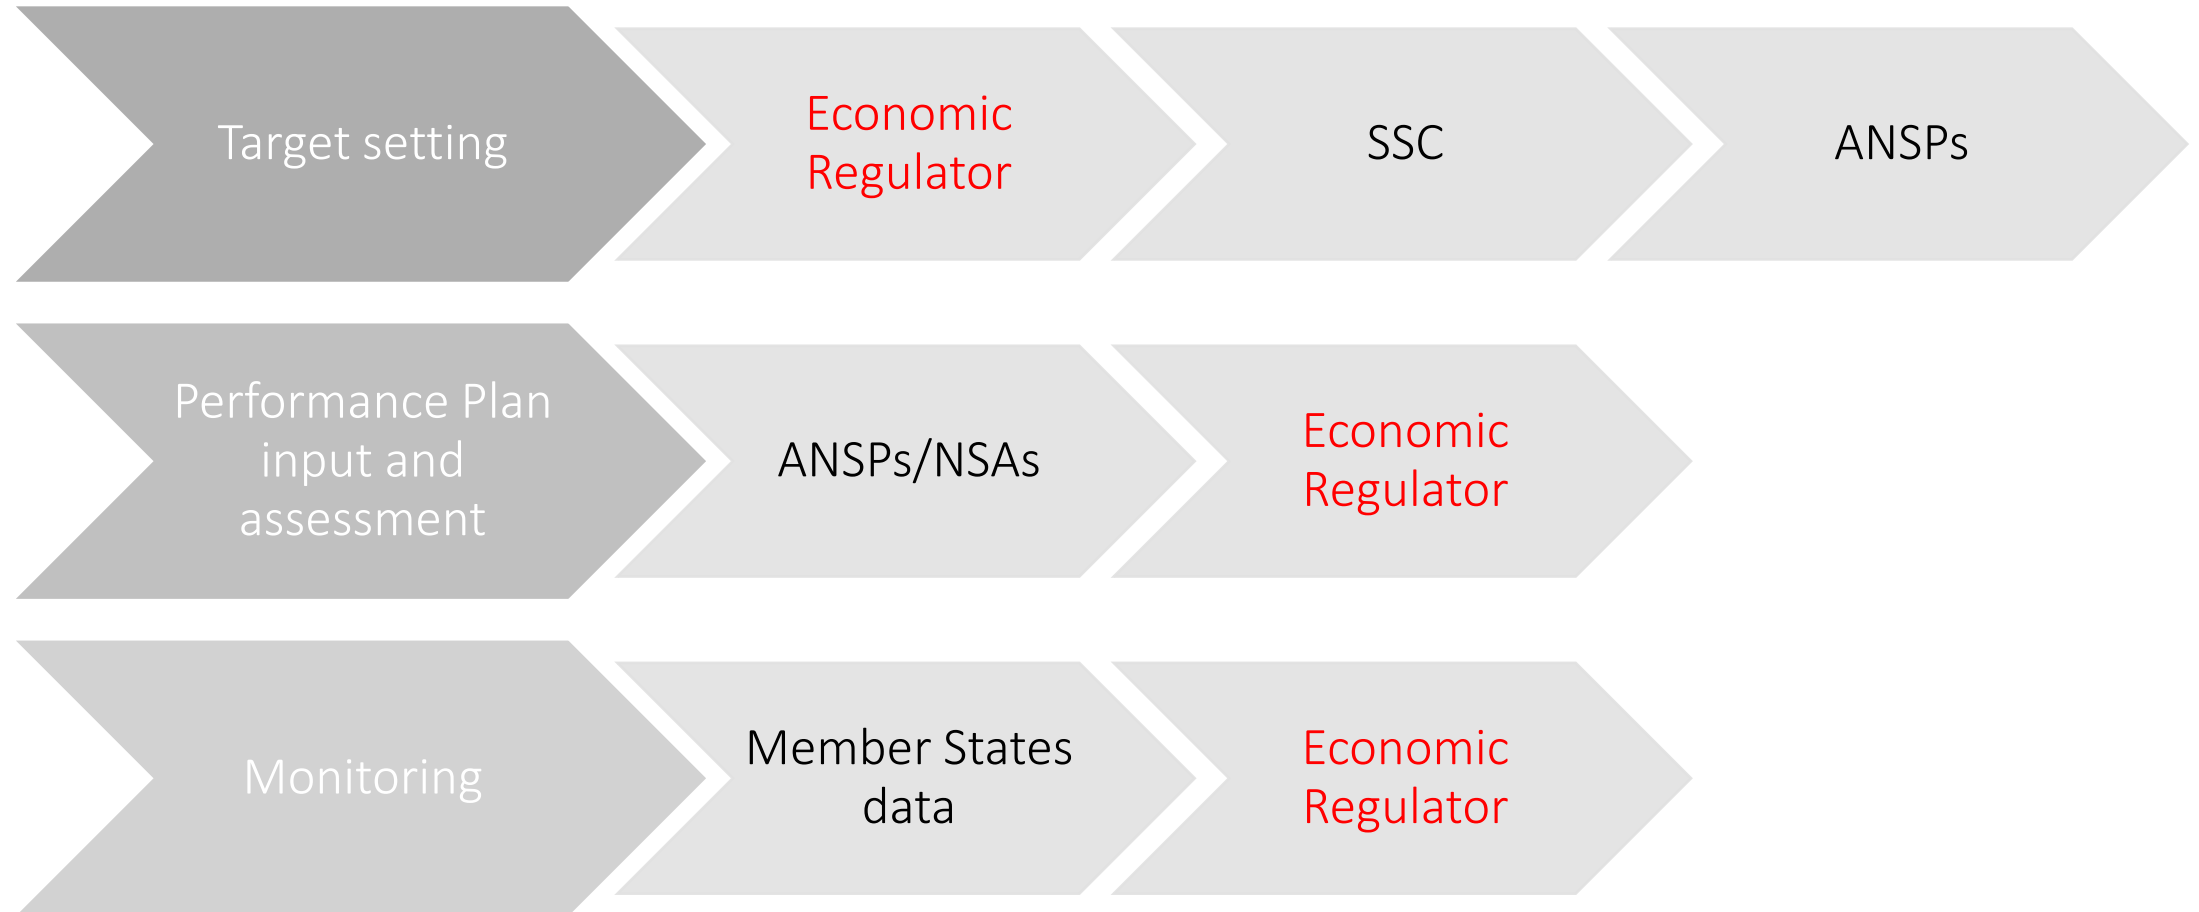

26 March 2021

Regula Dettling-Ott

TASKS as the starting point of the discussion about institutional changes

Possible changes

Further aspects

- Single Sky Committee – Is Comitology the adequate process to define targets for ANSPs?
- Review of decisions of the PRB/Economic Regulator – Appeals procedure
- Institutional set-up must reflect the scope of SES – EU agency reflects proper governance

- Avoid duplications in performance review/monitoring
- Adapt processes of economic regulation to technological realities of today's data streams
- How to get the right people to work in Economic Regulation for the SES
