60 years later: I'm more confused...

Florence School of Regulation

EU energy policy...
What's that?

Now please...

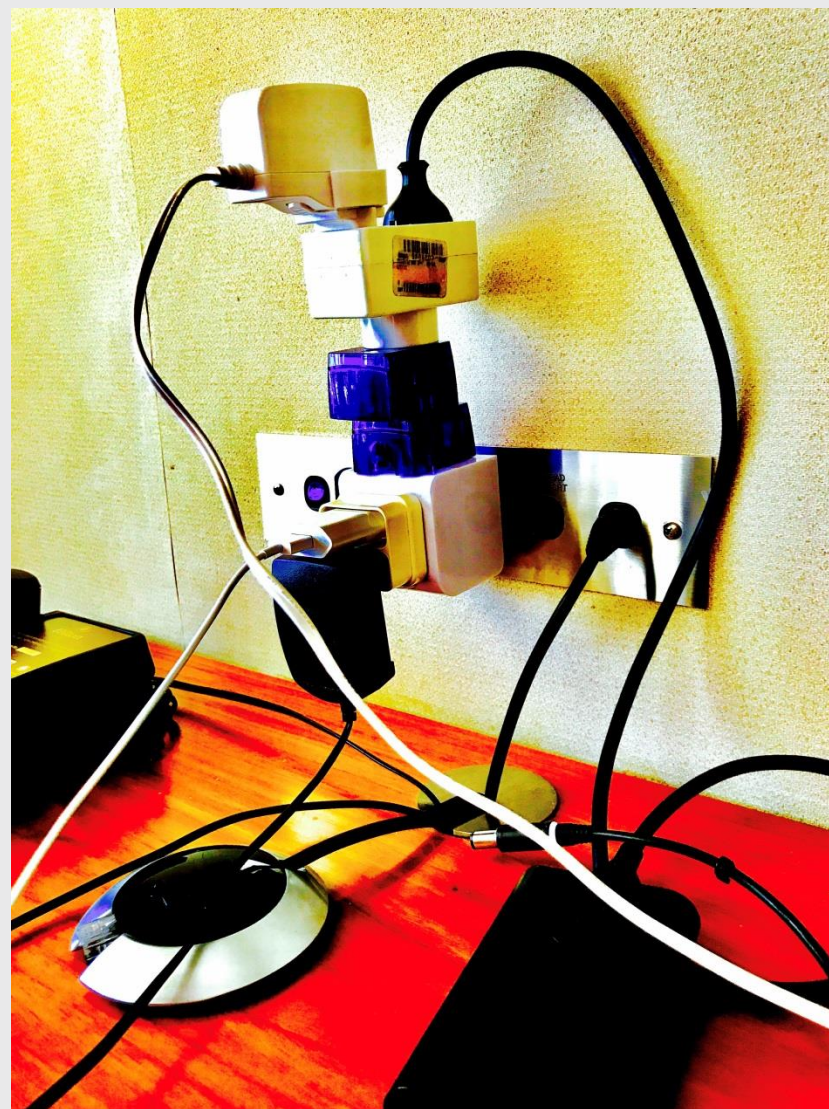

**Fasten your seat belt:
Take-off**

**You do not have
(1) EU energy policy**

But at least (3)

– if not (5)

They are:

1- building a continental-wide internal market (1986-2022)

2- decarbonizing energy ... produced, consumed (2007-2050)

3- building digital & decentralized energy system (2015->>>)

I will not look at (lack of time)

4- energy security of supply

5- external energy policy (“Energy Affairs” with non-EU countries)
