Our mission

FSR Energy brings together the worlds of academia and practice.

We carry out

- # Applied research,
- # Innovative training and
- # Policy dialogue

With the purpose of developing economically and socially sound energy regulation & policy

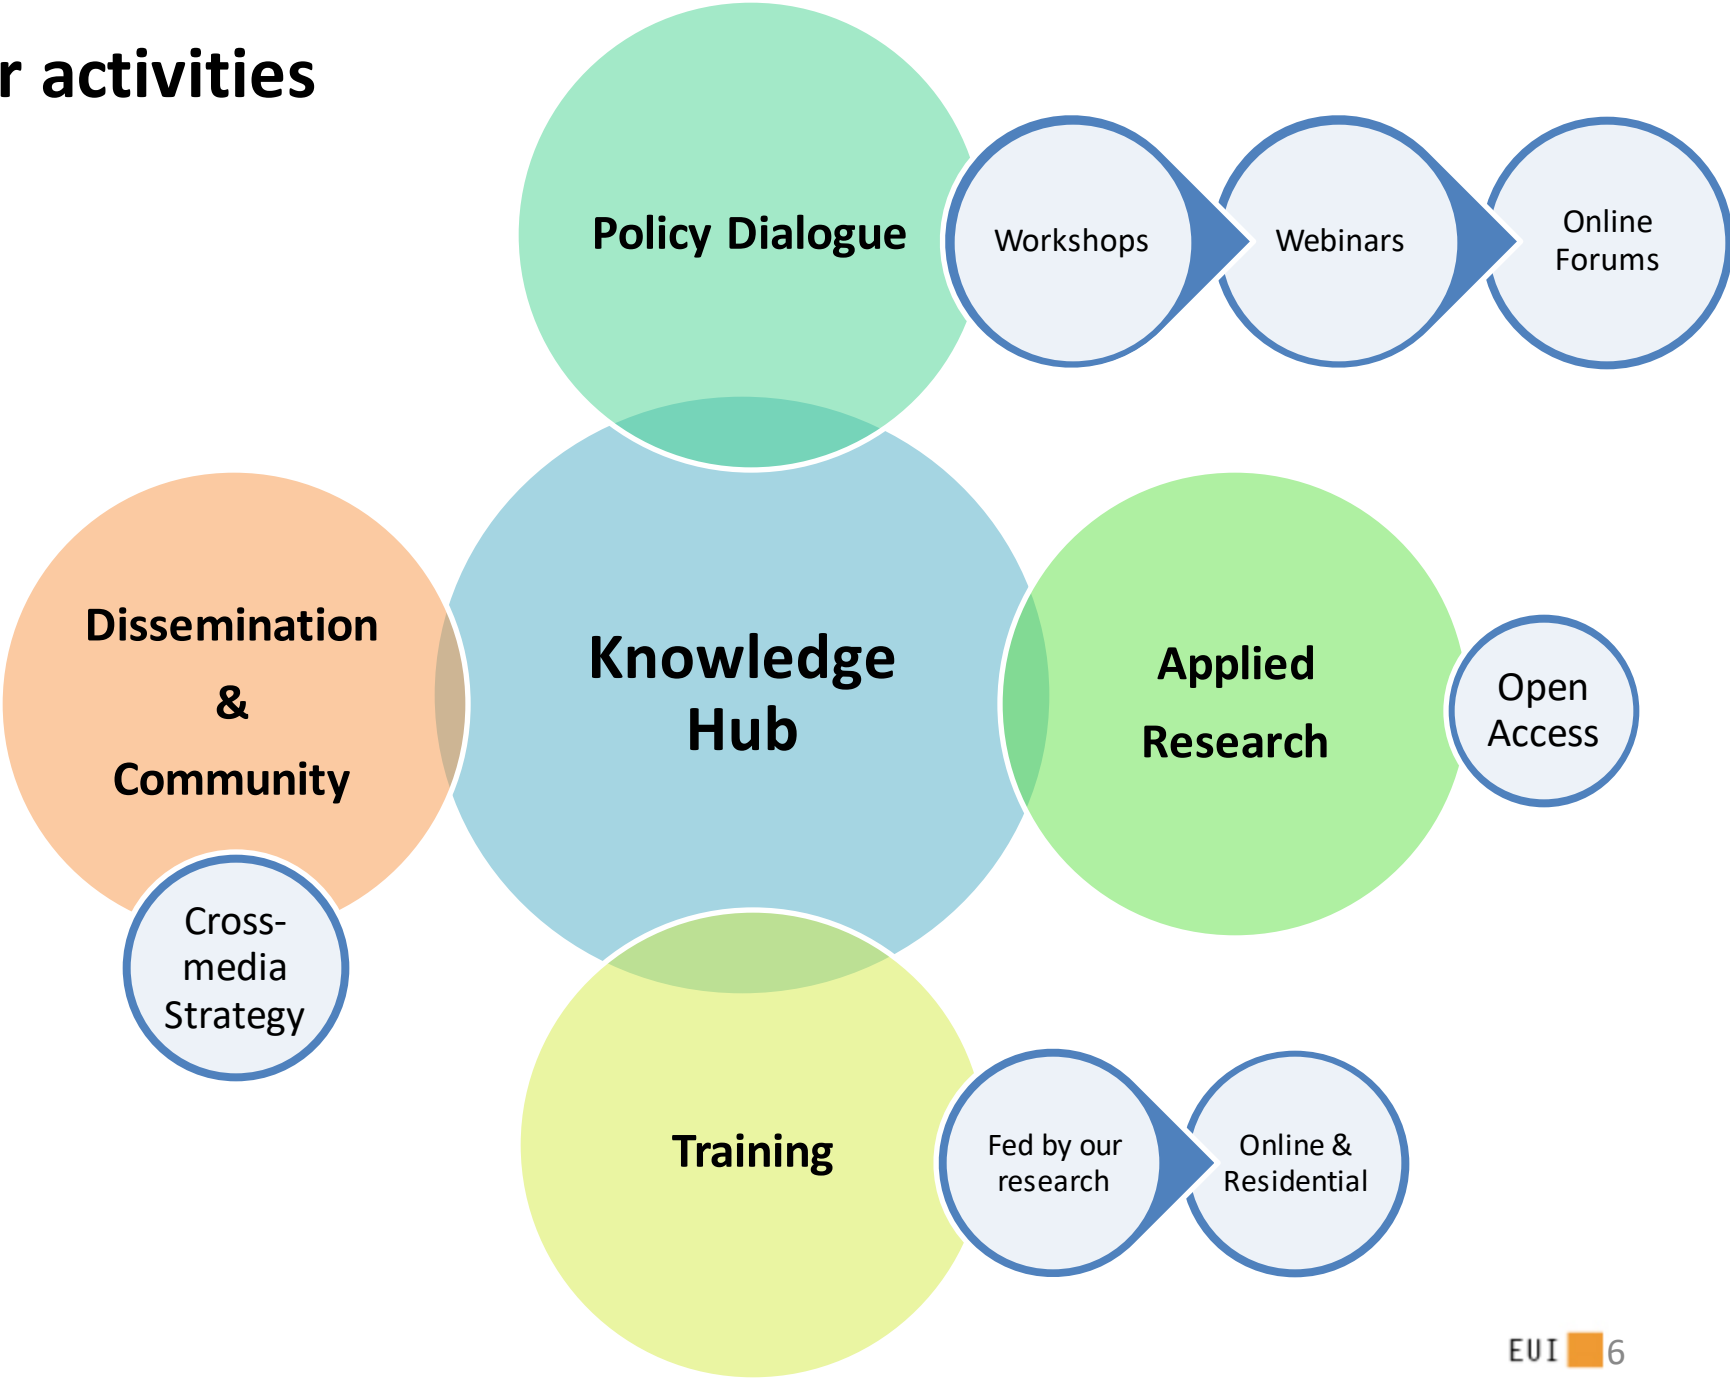

for Europe and worldwide.

Our Florence Team

Our activities

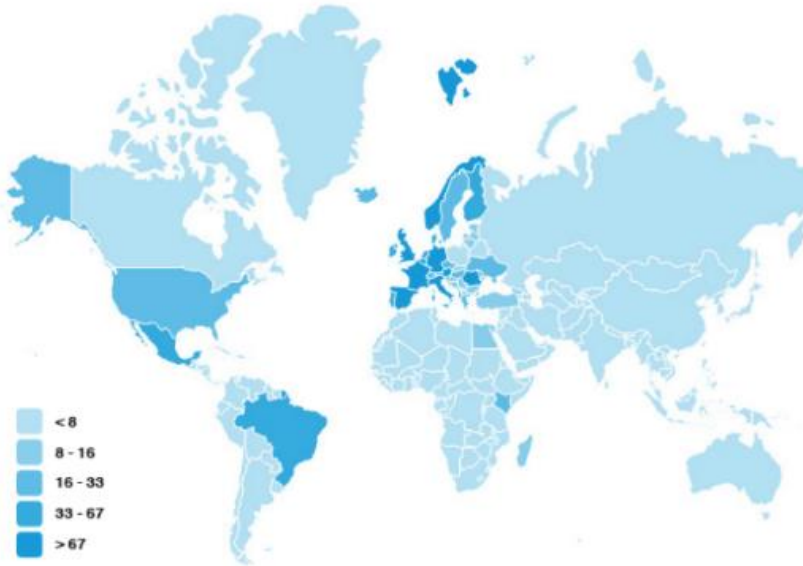

The Florence School of Regulation continued in its commitment to deliver meaningful and innovative insight into the most relevant energy, energy law and climate issues, tackling regulation and policy through a multidisciplinary approach.

In Florence, in Brussels, and online.

FSR Energy & Climate offers a vast range of opportunities for open discussion on energy regulation, EU energy and climate policy and law. These events provide a platform for innovative discussion and practice-sharing, and offer opportunities for close interaction with the key stakeholders of the energy industry at various locations across Europe.
