Title of the research:

Overview:

Methods:

Results:

Important information

All the above fields are mandatory.

The maximum length of the sum of the paragraphs providing the overview, methods and results of the research is 3,500 characters, all included. The paragraph on the overview should provide the motivations for the research. If results are not yet available, the applicant must present any expected result and/or discuss any issue he or she is encountering in the delivery of the research.

A very concise bibliography can be provided after results, but it is not necessary.
