

PRC Transformation Support Strategy

Peter Whysall: Vice Chair Performance Review Commission

In search of flagships for ATM transformation

22nd February 2023

Aviation Intelligence Unit / PRU

Rue de la Fusée 96, B-1130 Brussels, Belgium

www.ansperformance.eu

PRC Context

- PRC role is to independently review and report on ATM performance
 - Publishing flagship performance reports
 - Performance Review Report (PRR)
 - ACE Benchmarking Report
- Traditional performance monitoring is primarily backward looking
- PRC wants to create a more forward looking approach
 - What are the key enablers to future performance
 - What are the blockers standing in the way
 - Where can the PRC highlight / encourage change to deliver future performance

Motivation

- Political drivers and priorities require a **fundamental** and **substantial “change”** of the air navigation to accommodate airspace user needs and expectations
- **“higher levels of performance”** (across all KPAs) is the declared performance goal
- These higher levels of performance can be only achieved through a
deliberate transformation

addressing the political goals
 - in particular
 - (i) meeting the environmental goals and
 - (ii) ensuring reduction on constraints on airspace users by ensuring operational excellence (e.g. capacity, safety)

PRC's Transformation Support Strategy

*What lies ahead
for the European
Air Navigation
System?*

*"... independently
observe and measure
major transformations
in safe/secure air
navigation perfor-
mance based on
agreed strategies
and policies..."*

*Drive change by iden-
tifying priority trans-
formation actions,
including
flagship initiatives,
and provide rolling
and transparent
performance
monitoring*

Motivation &
Drivers

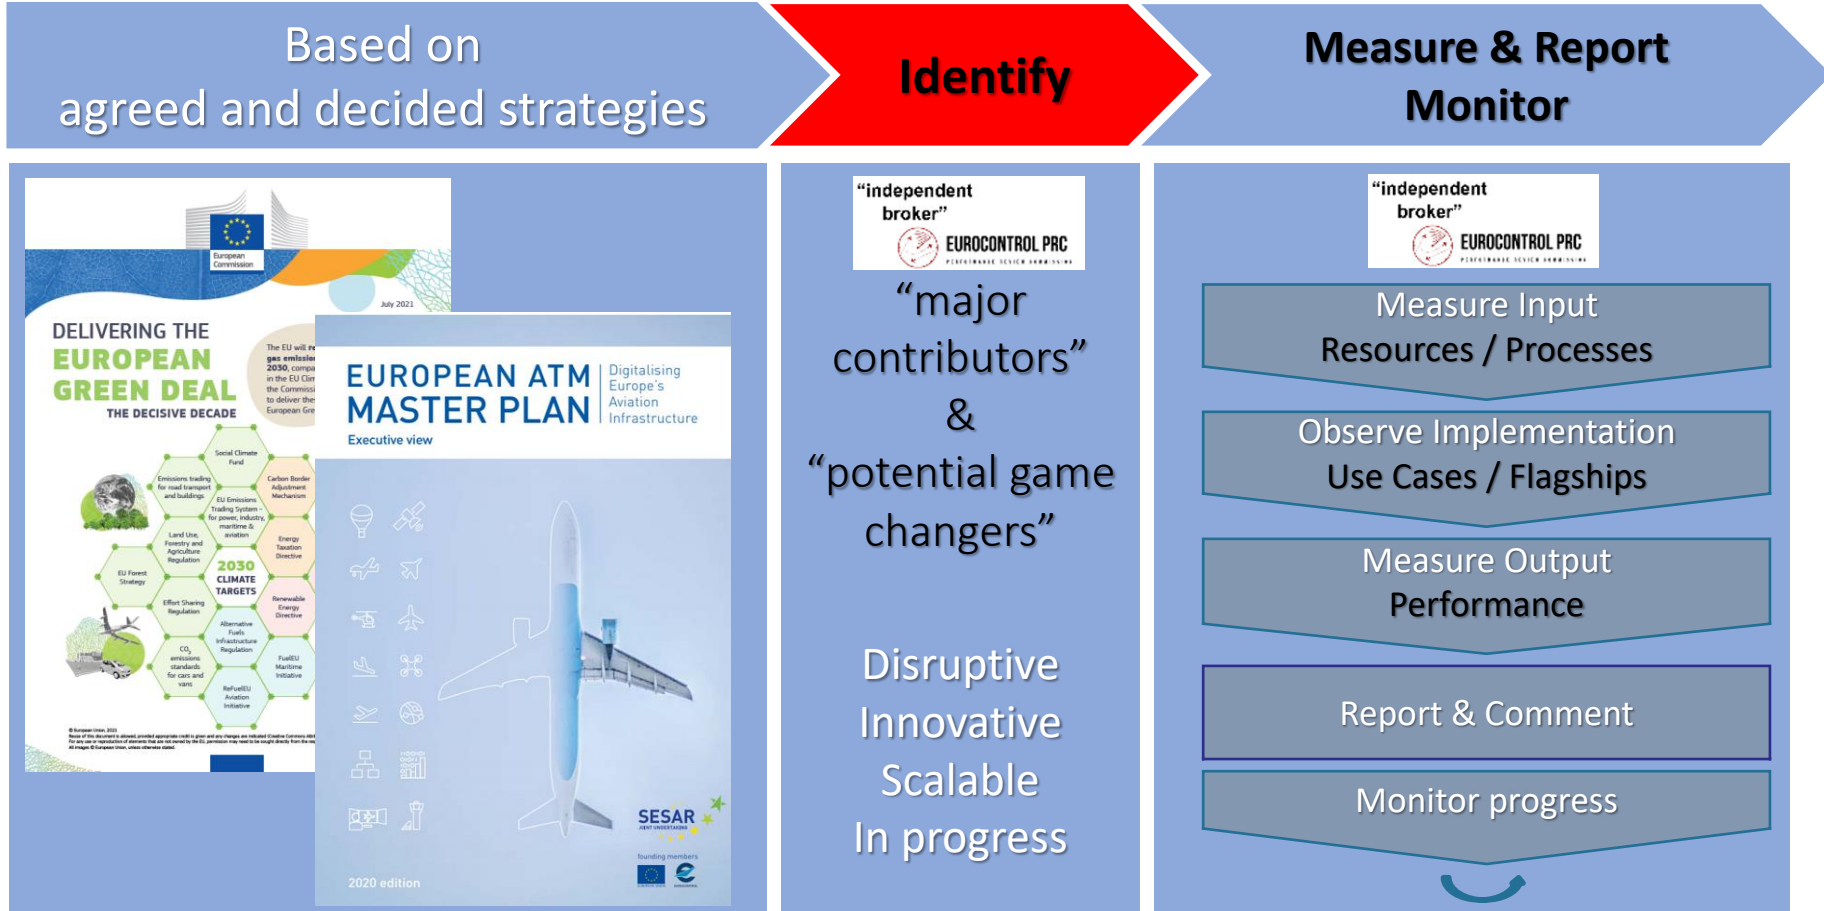

Vision

Action

PRC's Transformation Support Strategy

Next Steps

- Transformation Support Strategy workshop with key stakeholders (February 2023)
- Identification and prioritisation of flagship initiatives (“game-changers”) and use-cases (on-going system change and implementations)

including

- Develop list of candidate flagships from the workshop
 - Questionnaires to seek further information
 - Position papers with key stakeholders / implementation actors
 - Targeted PRC monitoring products
 - Second workshop in October 2023
- Continued dialogue with key stakeholders
