

Residential Training

Florence academy on smart transport regulation

1-2 October 2024

Villa Schifanoia, Via Boccaccio 121 - Florence

Scientific Organiser:

Juan Montero | Director, Florence School of Regulation – Transport Area, EUI

Training Coordinator:

Irina Lapenkova | Florence School of Regulation – Transport Area, EUI

Introduction

Digitalisation is transforming transport and mobility. Understanding the regulatory implications of digitalisation requires knowledge of EU digital law and policy (DSA, DMA, Data Act) and the regulatory strategy in transport (digitalisation of infrastructure and services, Mobility Data Space, data sharing, ticketing, etc.).

During this residential training at the European University Institute in Florence, you will explore key issues affecting the transport and mobility sectors. After completing the training, you will be able to address the following questions:

- What is of interest for transport in the general EU Digital strategy?
- What is the impact of the Digital Markets Act on transport?
- What are the ambitions of the EU Mobility Data Space?
- How can data sharing in transport be regulated?
- What is FRAND?
- How to regulate MaaS?
- What is next after MDMS?

Draft Programme
