## Executive Education 2026

[fsr.eui.eu](https://fsr.eui.eu)

Co-funded by  
the European Union

# FSR pillars

## Research

The school carries out multidisciplinary research with the purpose of developing economically, legally, and socially-sound regulation and policy.

## Training courses

Designed by an international faculty of academics and the main experts in the field, our courses are designed to meet the educational needs of professionals at all levels.

## Policy events

Our events bring together the world of academia and practice to offer a vast range of opportunities for open discussion and practice sharing.

# The school

The FSR is a unique combination of a university research group, a think tank and an executive education institute, working to improve policy and regulation in Europe and worldwide. We are a global community of professionals coming from top universities, policy-making and regulatory institutions in 12 different countries, sharing the goal of bridging the gap between academia and practice through an interdisciplinary approach.

# Executive Education 2026

---

Our executive education portfolio is continuously improved ensuring it is up to date with the latest policy and regulatory developments for climate, energy, transport, water and waste. Our courses are divided into three levels: highlights, fundamentals and specialised; and two categories: class and community. We also offer tailor-made training courses designed to meet the specific needs and requirements of the requesting organisation.

## Community courses

Online courses with unrestricted admission, offering flexible learning paths and participant-led sessions. Designed to deep dive into the topic while interacting with instructors and peers.
