Call for Papers

Annual Scientific Seminar on Media and the Digital Economy 9th edition

Florence, 21-22 March 2019

The Florence School of Regulation, Communications & Media, the Centre for Media Pluralism and Media Freedom and the Florence Competition Programme in Law and Economics invite submissions for the Annual Scientific Seminar on Media and the Digital Economy, now in its 9th edition.

We seek policy-oriented research in economics and law covering media markets and the digital economy, broadly defined. The seminar brings together scholars and practitioners across the social sciences for policy-oriented examination of these rapidly-changing markets.

We welcome submissions relating to the economic, social and political impacts of digital markets. Suggested topics include competition issues in digital platforms, the impact of emerging technology, privacy regulation, and the political economy of media. The final programme will include 14-16 papers over a two-day period.

Please submit (unpublished)
manuscripts by Friday, 11 January
2019 to [this link](#)

Long abstracts accepted, full papers
preferred. Decisions expected by
Friday, 1 February 2019

Keynote

Data Standardisation: Implications for Enforcement
and Competition

Daniel Rubinfeld

Professor of Law, NYU School of Law,
Emeritus Professor of Law and Economics, UC Berkeley
